

RM351 HD™

MIXED SERVICE ON/OFF ROAD DRIVE

The RM351 HD™ is the newest edition to the Roadmaster line of mixed service products. This highly versatile on/off road drive tire includes attributes specifically tailored for mixed service applications, such as logging, mining, and construction. The deep lugs, cut and chip resistant compound, and stone ejectors provide the performance and durability required while operating in both on and off road conditions.

CUT AND CHIP RESISTANT COMPOUND

Tread compound was specially formulated to meet the diverse performance requirements in mixed service applications.

32/32" DEEP TREAD DEPTH

Provides extended tread life in severe, high-scrub applications.

STONE EJECTOR LEDGES

Stone ejector ledges coupled with angled grooves help to prevent stone retention and aid in preserving the casing for retreading.

OPTIMIZED SHOULDER DESIGN

Notches in shoulder lugs provide added traction while tie-bars are designed to prevent heel-toe wear.
